Saumya Verma

Frontend Developer | React | JavaScript | UI Development
Noida, India | +91-7355004579
📧 saumya.verma@email.com | 🔗 LinkedIn | 🔗 GitHub |

Professional Summary:

Frontend Developer building **real-world React applications** with a focus on clean UI, practical state management, and responsive user experiences. Transitioning from **5+ years of professional content writing and healthcare documentation**, bringing strong analytical thinking, accuracy, and structured problem-solving into software development. Experienced in developing deployable projects using **React, JavaScript, HTML, and CSS**, with hands-on experience in CRUD operations, component architecture, and modern frontend workflows. Known for delivering detail-oriented work in collaborative, deadline-driven environments.

Technical Skills:

Frontend: HTML5, CSS3, JavaScript (ES6+), React (Hooks), Responsive Design, Flexbox, Grid
Concepts: DOM Manipulation, State Management, Component Architecture, REST API Integration (Learning)
Tools: Git, GitHub, VS Code, Chrome DevTools, Vercel
Backend (Learning): Node.js, Express.js, MongoDB
Other Strengths: Accessibility Basics, UI Consistency, Problem Solving

---

Projects:

🚀 Freelance Client Management App (React) — Featured Project:

- Built a real-world CRUD application using **React Hooks (useState, useEffect)**.
- Implemented add, edit, delete, and persistent storage using **localStorage**.
- Managed component state and ensured synchronized UI updates.
- Designed responsive and clean UI focused on usability and scalability.
- Demonstrates practical understanding of state management and data handling.
- **Live Demo:** https://freelance-client-management-system.vercel.app/
- **GitHub Repo:** https://github.com/saumya-30-verma/Freelance-client-management-system

🚀 DevFolio — React Portfolio Builder:

- Developed a dynamic portfolio builder web application using **React.js** to help users create developer portfolios quickly.

- Implemented client-side routing using **React Router DOM** for seamless navigation between multiple sections.
- Designed reusable and modular components for Hero, About, Projects, and Skills sections.
- Built responsive UI using modern CSS to ensure compatibility across devices.
- Applied component-based architecture to improve scalability and maintainability.
- Integrated smooth navigation and structured layout for better user experience.
- Technologies Used: **React.js, JavaScript (ES6+), CSS3, React Router DOM**
- **Live Demo:** https://dev-folio-builder-psi.vercel.app/
- **GitHub Repo**: https://github.com/saumya-30-verma/DevFolio-Builder

⏱️ Stopwatch App (React):

- Developed timer functionality with start, pause, and reset features.
- Practiced lifecycle logic and interval handling using React hooks.
- Created reusable components with clean state separation.
- **Live Demo:** https://stopwatch-timer-pi.vercel.app/
- **GitHub Repo:** https://github.com/saumya-30-verma/Stopwatch-Timer

🔄 UI State Toggle Components (React Mini Project):

- Implemented toggle-based UI interactions using React state.
- Strengthened understanding of conditional rendering and component behavior.
- Focused on lightweight, reusable UI logic patterns.
- **Live Demo:** https://toggle-theme-olive.vercel.app/
- **GitHub Repo:** https://github.com/saumya-30-verma/Toggle-theme

---

Professional Experience:

IDS Infotech Ltd — Noida, India

Senior Abstracting & Indexing Associate (UK & Domestic) | May 2021 – Present

- Processed and indexed 2000+ academic and scientific documents.
- Created structured metadata improving research discoverability.
- Maintained **99%+ quality accuracy** through detailed validation checks.
- Collaborated with editorial teams to improve content organization.

Content Writer – Healthcare (US Shift) | Jul 2019 – Apr 2021

- Produced healthcare documentation and clinical summaries.

- Ensured compliance with HIPAA and client-specific standards.
- Worked in high-volume, deadline-driven environments.

Education:

M.Tech – Bioinformatics — Delhi Technological University (2017–2019)
Postgraduate – Biochemistry — University of Allahabad (2015–2017)

Certifications:

- Frontend Development Certification — OneRoadmap
- Frontend Web Development Internship — CodTech IT Solutions
- Ongoing Full Stack Training — React, Node.js, MongoDB

Additional Highlights:

- Transitioned successfully from content domain into software development.
- Strong research and analytical thinking applied to technical problem solving.
- Passionate about building scalable and user-friendly web applications.
- Actively improving React and full-stack development skills.
